Trip Highlights

- Attidiya Bird Sanctuary
- Baron's Cap or Thoppigala
- Birds Research Center Hambantota
- Delft Baobab Tree
- Bundala Safari with Srimal
- Bundala National Park
- Delft Wild Horses

Day-by-Day Schedule

Day 1 — Colombo

Colombo · Stay: Radisson Colombo

7:30 AM — Attidiya Bird Sanctuary (Mood: Adventure · Wild)

Very nice place to hangout in the evening. Have a little food court there but it doesn't have much food varieties. There is a car park to park your vehicles and also there are bicycles for rent near the park.

Day 2 — Batticaloa

Batticaloa · Stay: Treatooo Lake Resort

7:30 AM — Baron's Cap or Thoppigala (Mood: Adventure · Wild)

Thoppigala, nicknamed "Baron's Cap" for its distinctive rounded rock summit, is a forested hill straddling the Batticaloa and Ampara districts that served as a key LTTE stronghold during Sri Lanka's civil war until it was captured by government forces in 2007. Today the site includes a war memorial and museum, and the hilltop offers panoramic views over the surrounding jungle. It draws visitors interested in the recent history of the conflict as well as the scenery.

Day 3 — Batticaloa

Batticaloa · Stay: Treatooo Lake Resort

7:30 AM — Explore Batticaloa (Mood: Adventure · Leisure)

Free time in Batticaloa. Relax, try local food, or revisit nearby spots at your own pace.

Day 4 — Hambantota

Hambantota · Stay: Cinnamon Wild Yala

7:30 AM — Birds Research Center Hambantota (Mood: Adventure · Wild)

Hambantota Bird Research Center is a great place to watch large amount of varoius types of birds. There are thousands of birds. Peacocks and ostriches are living freely. It draws a steady stream of local visitors, especially on weekends.

Day 5 — Hambantota

Hambantota · Stay: Cinnamon Wild Yala

7:30 AM — Bundala Safari with Srimal (Mood: Adventure · Wild)

Best safari ever! Srimal has a great eye for spotting the animals. You can see that he really cares for animals and has a great knowledge about them.

10:30 AM — Bundala National Park (Mood: Adventure · Wild)

Bundala National Park, on the southeastern coast near Hambantota, is a RAMSAR-listed wetland renowned for its birdlife, particularly large flocks of migratory greater flamingos that gather in its lagoons during the winter months. The park's mix of lagoons, dunes, and scrub jungle also supports elephants, crocodiles, and sea turtles nesting along its beaches. It is considered one of Sri Lanka's premier birdwatching destinations.

Day 6 — Jaffna

Jaffna · Stay: Waran Rest

7:30 AM — Delft Baobab Tree (Mood: Adventure · Wild)

The baobab tree on Delft Island is one of only three such trees of its size in Sri Lanka, a species native to Africa and not naturally found on the island. Believed to be several centuries old, with a hollow trunk large enough to hold several people, it is thought to have been introduced by Arab traders or by the Portuguese, who reportedly used parts of the tree medicinally for horses. It stands as one of Delft Island's most distinctive natural landmarks.

Day 7 — Jaffna

Jaffna · Stay: Waran Rest

7:30 AM — Delft Wild Horses (Mood: Adventure · Wild)

Delft Island (Neduntheevu), off the Jaffna Peninsula, is the only place in Sri Lanka where wild horses roam freely, with several hundred animals believed to be descendants of horses brought by the Portuguese and later Dutch for the regional horse trade. The horses graze semi-wild across the island's flat, coral-strewn grasslands and are protected from removal by law. Their presence, alongside the island's other colonial ruins, makes Delft a distinctive day-trip destination from Jaffna.
